

Investor Relations Website Service (IR Website)

IR website is a service for public companies listed in the SET and mai which enables them to publish the trading information of their security through their owned corporate registered website. This will enable listed companies to reach out to their share holders and investors more effectively and efficiency by providing a timely share price performance in a manner consistent with companies' corporate websites, hence, bringing and enhancing the corporate image and promote good corporate governance.

In order to use IR website service, listed companies are required to subscribe such service with SET. Recently, there are 2 types of service as below;

1. To receive the service directly from SET with SET's standard template

For convenience, listed companies may use SET's standard template provided by SET. Just by placing the Html code received from SET into the company's registered website, listed companies will be able to display their security trading information (15 minutes snap shot) as well as SET Index information right away.

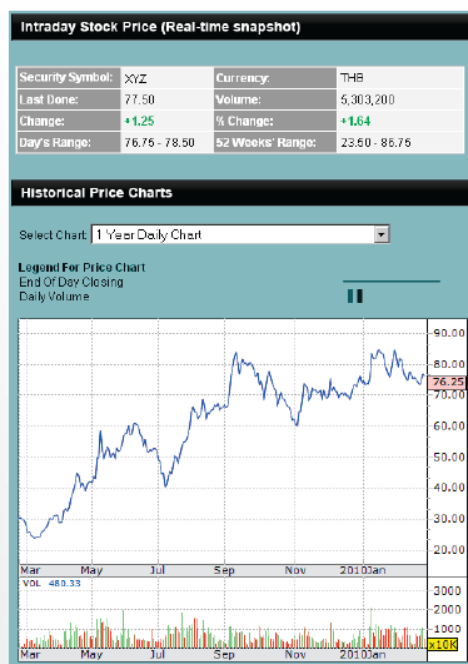

Security Symbol	Currency	THB
XYZ	77.50	5,303,200
Change	+1.25	% Change: +1.64
Day's Range	76.75 - 78.50	52 Weeks' Range: 23.50 - 88.75

Example of SET's standard template service

2. To receive the service from SET's authorized service provider

SET- Listed companies that wish to customize the interface may contact SET's authorized service provider for integration and customization of Share price and Index information in listed companies' registered website. However, please note that listed companies are required to submit an application and get the approval from SET to be able to receive such service from SET's authorized service provider.

For more information please contact : Infoproducts@set.or.th
