

SET announces that SLM has entered the period for the repossession of qualifications in order to resume trading (Resume Stage)

According to the announcement of the Stock Exchange of Thailand (SET) that SLM Corporation Public Company Limited (SLM) is subject to possible delisting as a result of the company's audited financial statements of the year 2017, showing shareholders' equity less than zero.

SLM has submitted its Q2/2021 financial statements, showing shareholders' equity more than zero. SET therefore announces that SLM has entered the period for the repossession of qualifications in order to resume trading (Resume Stage) which SLM must take actions to repossess the qualifications in order to resume trading within September 1, 2023. If SLM is unable to repossess the qualifications in order to resume trading with the specified period, SET will propose to the SET's Board of Governors to consider delisting the company's securities accordingly.

In addition, SP and NC signs are still posted on SLM's securities until SLM is able to eliminate the grounds for delisting and repossess the qualifications in order to resume trading.
