It was resolved to propose that the Shareholders' meeting to consider and approve the issuance and allocation of not exceeding 49,366,750 newly issued ordinary shares of the Company at a par value of THB1 per share to (1) offer by the way of private placement in the amount not exceeding 11,250,000 shares (2) reserve for the right adjustment for exercise the right under the Warrants to Purchase the Ordinary Shares of the Company Series 2 (HEMP-W2) in the amount not exceeding 2,546,800 shares and (3) offer by the means of General Mandate for offering by the way of the Private Placement in the amount not exceeding 35,569,950 shares. The details of which are as flows:

- 3.1 It was resolved to propose that the Shareholders' meeting to consider and approve the allocation of the newly issued ordinary shares in the amount not exceeding 11,250,000 shares at a par value of THB1 per share with the offering price of THB 8 per share, totalling of THB 90,000,000 to offer to the Seller of HUG Shares by the way of Private Placement as payment in kind for the Share Purchase Transaction of HUG. In this regard, the Seller of HUG Shares shall pay the purchase price with 1,000,000 ordinary shares of HUG at a par value of THB 100 per share (or representing 40 percent of total registered and paid-up shares in HUG) instead of cash payment for the Company newly issued shares.

The issuance and allocation of newly issued ordinary shares in consideration of the acquisition of shares in HUG to the Seller of HUG Shares as aforementioned above constitutes a private placement of newly issued ordinary shares constitutes an offering of newly issued ordinary shares by way of private placement, whereby the Shareholders' Meeting of the Company shall pass a resolution to specifically determine the offering price at THB 8 per share, which is not lower than 90% of the market price of the Company's shares pursuant to the Notification No. TorJor. 72/2558. The transaction must be approved by the Shareholders' Meeting of the Company with affirmative votes of not less than three-fourths of the total number of votes of the shareholders who attend the meeting and are entitled to vote. In addition, not only the approval from the Shareholders' meeting to allow the Company to offer and allocate the newly issued ordinary shares of the Company, the

Company also required to obtain approval from the SEC Office as specified in the Notification No. TorJor. 72/2558 before such offering and allocation of the Company's newly issued ordinary shares.

In this regard, the "market price" for the issuance the newly issued ordinary shares to the Seller of HUG Shares is calculated from the weighted average price of the Company's shares listed on the SET for the past period of 7 consecutive business days prior to the date the Board of Directors passed its resolution to propose this matter to the Shareholders' meeting to approve the issuance and allocation of the newly issued ordinary shares to the Seller of HUG Shares which is a private placement which during the period from May 25, 2022 to June 2, 2022 is equal to THB 7.95 per share (Source: SETSMART from www.setsmart.com).

Moreover, if the offering price of the newly issued ordinary shares to the Seller of HUG Shares is lower than 90 percent of the market price of the Company's shares before the first day of offering of the newly issued ordinary shares, the Company is obliged to prohibit the Seller of HUG Shares from selling all of such newly issued ordinary shares within one year from the date on which the Company's newly issued ordinary shares start trading on the SET (Silent Period). Upon a lapse of six months after the Company's newly issued ordinary shares have started trading on the SET, the Seller of HUG Shares may gradually sell up to 25 percent of such locked-up shares in accordance with the requirements set out in the Notification of the SET Re: Rules, Conditions and Procedures for Consideration of Application for Listing of Ordinary Shares or Preferred Shares for Capital Increase as Listed Securities B.E. 2558 (2015) dated May 11, 2015 (as amended).

Even the issuance and offering of the newly issued ordinary shares to the Seller of HUG Shares in this occasion has the offering price which is not lower than 90 percent of the market price of the ordinary of the Company as detailed above and not considered as the cause of right adjustment as specified in terms and conditions governing the rights and obligations of the issuer and holders of the warrants to purchase the ordinary shares of health empire corporation public company limited series 2 (HEMP-W2) (the "Terms and Conditions"), however the meeting of the Board of Directors deemed it appropriate to propose that the Shareholders' meeting to consider and approve the capital increase to reserve for the right adjustment for exercise the right under the Warrants to Purchase the Ordinary Shares of the Company Series 2 (HEMP-W2) due to the Terms and Conditions specified that "The Company will adjust the exercise price and exercise ratio to purchase ordinary shares throughout the term of the Warrants when the Company offers to sell its

newly issued ordinary shares to the existing shareholders and/or the public and/or private placement at the average price per share of the newly-issued ordinary share lower than 90 percent of the “market price of the Company’s ordinary shares”. In this regard, “market price of the Company’s ordinary shares” means the average weighted price of the Company’s ordinary share traded in the SET during 7 consecutive Business Days before the first date of the offering of the newly issued ordinary shares to the private placement.

Therefore, if the offering price at the first date of the offering of the newly issued ordinary shares to the private placement is lower than 90 percent of the market price of the Company’s ordinary shares which the right adjustment shall effective immediately from the first date of the offering to the private placement. Please refer to more details in Clause 3.2 of this information memorandum.

In this regard, after the issuance and allocation of the newly issued ordinary shares of the Company, the Seller of HUG Shares shall hold the shares in the Company (after the increase of the registered paid-up shares of the Company) in the proportion of 3.07 of all issued and paid-up shares of the Company after the increase of the registered paid-up shares of the Company. The Board also approved the execution of the share purchase agreement, and other arrangements, contracts and documents relating to the acquisition and acceptance of shares in HUG (the “Share Purchase Transaction of HUG”). The Company will pay for the shares in HUG with the following details:

- (1) The Company will pay for the consideration in cash for THB 90,000,000.
- (2) The Company will pay for the consideration by issuance of newly issued ordinary shares of the Company by the way of a private placement offering as payment in kind instead of cash in the amount of not exceeding 11,250,000 shares at a par value of THB 1.00 per share, with the offering price of THB 8 per share, totalling THB 90,000,000 to the Seller of HUG Shares as payment in kind for the acquisition and acceptance of the ordinary shares in HUG from the Seller of HUG Shares, representing 3.07 % of all issued and paid-up shares of the Company (based on all issued and paid-up shares of the Company after the execution of share allocation in consideration of the Share Purchase Transaction of HUG)

The shares allocation transaction in consideration for the purchase of the ordinary shares in HUG to the Seller of HUG Shares, which is not a connected person of the Company, constitutes an offering of newly issued ordinary shares by way of private placement. The Shareholders’ Meeting of the Company shall pass a resolution to specifically determine the offering price at THB 8 per share, which is not lower than 90% of the market price of the Company’s shares pursuant to the requirements of the Notification of the Capital Market Supervisory Board No. TorJor. 72/2558 Re: Permission for Listed Companies to Offer Newly Issued Shares to Specific Investors dated October 28, 2015 (as amended) (the “Notification No. TorJor. 72/2558”). In this regard, the “market price” refers to the weighted average price of the Company’s shares listed on the SET for the past period of at least 7 consecutive business days, but not exceeding 15 consecutive business days prior to the date the Board of Directors passed its

resolution to propose this matter to the Shareholders' Meeting of the Company to approve the capital increase and the allocation of new shares, whereby the weighted average price of the Company's shares calculated for the past 7 consecutive business days during the period from May 25, 2022 to June 2, 2022 is equal to THB 7.95 per share (Source: SETSMART from www.setsmart.com). The Company's newly issued ordinary shares shall be used as payment in kind for the acquisition and acceptance of HUG's shares from the Seller of HU Shares (the "Transaction involving the Share Allocation in Consideration of an Acquisition of Shares in HUG").

The Share Purchase Transaction of HUG is regarded as an acquisition of assets pursuant to the Notification of the Capital Markets Supervisory Board No. TorJor. 20/2551 Re: Rules on Entering into Material Transactions Deemed as Acquisition or Disposal of Assets dated August 31, 2008 (as amended) and the Notification of the Board of Governors of the Stock Exchange of Thailand Re: Disclosure of Information and Other Acts of Listed Companies Concerning the Acquisition and Disposition of Assets B. E. 2547 (2004) dated October 29, 2004 (as amended) (the "Notifications on Acquisition and Disposition of Assets"). Upon calculation of the transaction size based on total value of consideration compared to net tangible assets value of the Company according to the reviewed quarterly financial statements of the Company ended March 31, 2022 the transaction value is equal to 12.68%. Upon combination of the Company's transactions involving the acquisition of assets over the past six months which is 11.01%, the highest value of the transaction is equal to 23.69% based on the total value of consideration criteria. The transaction is regarded as a type 2 (the transaction between the listed company and non-listed person which is equal to 15% or higher, but lower than 50%) pursuant to the Notifications on Acquisition or Disposition of Assets. Therefore, the Company is required to immediately report and disclose an information memorandum on such transaction to the SET, which must at least contain the information as required in List (1) attached to the Notifications on Acquisition or Disposal of Assets, and give notice to the shareholders within 21 days from the date of such disclosure to the SET, which must at least contain the information as required in Lists (2) 1, 2, 3, 5(3), 7 and 8 attached to the Notifications on Acquisition or Disposal Assets.

Therefore, the Company would like to disclose the details of the acquisition of assets regarding the Acquisition of Ordinary Shares in HUG, with the details as follows:

1. Date of the Transaction

The acquisition of shares shall occur upon the conditions that (i) the Company obtains an approval for the Transaction involving the Share Allocation in Consideration of an Acquisition of Shares in HUG from the Extraordinary General Meeting of Shareholders No. 1/2022 which will be held on August 9, 2022, (ii) the Securities and Exchange Commission (the "SEC Office") grants an approval to the Company to offer the newly issued shares to the private placement investor, namely the Seller of HUG Shares, as payment in kind for shares instead of cash,

and (iii) after the completion of the conditions precedent under the share purchase agreement have been completed or has been waived by the relevant parties and the obligations under the shares purchase agreement have been taken to complete the transaction. The significant conditions precedent and terms appear in Clause 9 of this Imitation Memorandum.

2. Parties involved and their relationship with the Company

Purchaser : Health Empire Corporation Public Company Limited

Seller : TF Wealth Company Limited (the “**Seller of HUG’s Shares**”), which holds the shares in HUG representing 40 percent of the total shares.

(FGE holds shares in the Seller of HUG Shares in the proportion of 99.97 percent of the total registered and paid-up capital of the Seller of HUG Shares provided that currently is on the process of incorporation registration with Department of Business Development Ministry of Commerce and expected to be completed within 6 June, 2022)

Relationship with the Company : Not a connected person of the Company according to the Notification of the Capital Market Supervisory Board No. TorJor. 21/2551 Re: Rules on Connected Transactions, dated August 31, 2008 (as amended) and the Notification of the Board of Governors of the Stock Exchange of Thailand Re: Disclosure of Information and Other Acts of Listed Companies Concerning the Connected Transactions B.E. 2546 (2003), dated November 19, 2003 (as amended) (the “**Notifications on Connected Transactions**”) since the Seller of HUG Shares is not a major shareholder, a person who will be nominated as a controller including related persons of such persons of the Company.

3. General Description and Size of the Transaction

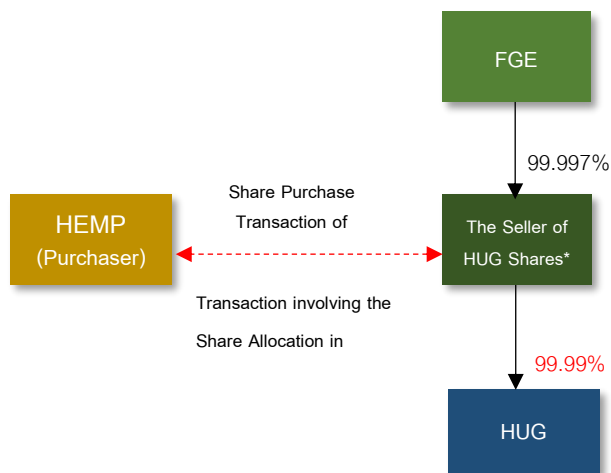

3.1 General Description

The Company shall enter into the share purchase agreement in relation to HUG in order to purchase 1,000,000 shares in HUG at a par value of THB 100 per share, representing 40 percent of total registered and paid-up shares in HUG from the Seller of HUG Shares at the total value of not exceeding THB 180,000,000

according to the method and procedure agreed by the parties, including the execution of other arrangements, contracts and documents relating to such investment. The Company shall pay for such HUG's shares in the form of (1) cash in the amount of THB 90,000,000 and (2) the issuance of newly issued ordinary shares of the Company in the amount of not exceeding 11,250,000 shares at a par value of THB 1.00 per share by the way of a private placement at the offering price of THB 8 per share. The Company is of the view that such price shall secure to the best interests of the shareholders upon consideration of HUG's value and the current value of the Company's shares and such offering price is not lower than 90% of the market price pursuant to the requirements of the Notification No. TorJor. 72/2558. In this regard, the "market price" refers to the weighted average price of the Company's shares listed on the SET for the past period of at least 7 consecutive business days, but not exceeding 15 consecutive business days prior to the date the Board of Directors passed its resolution to propose this matter to the Shareholders' Meeting of the Company to approve the capital increase and the allocation of new shares, whereby the weighted average price of the Company's shares calculated for the past 7 consecutive business days during the period from May 25, 2022 to June 2, 2022 is equal to THB 7.95 per share (Source: SETSMART from www.setsmart.com) as payment in kind instead of cash.

The offering of the Company's newly issued ordinary shares by way of private placement on this occasion constitutes a private placement of newly issued ordinary shares, whereby the Company's Board of Directors specifically determines the offering price to be proposed to the Shareholders' Meeting. Thus, the Shareholders' Meeting shall approve the offering price of newly issued ordinary shares at THB 8 per share. In addition to an approval for an offering of newly issued ordinary shares from the Shareholders' Meeting by way of private placement, the Company must also obtain permission from the SEC Office to offer the newly issued ordinary shares by way of private placement pursuant to the Notification No. TorJor. 72/2558.

Shareholding structure prior the transaction

In this regard, after the issuance and allocation of the newly issued ordinary shares of the Company, the Seller of HUG Shares shall hold the shares in the Company (after the increase of the registered paid-up shares of the Company) in the proportion of 3.07 of all issued and paid-up shares of the Company after the increase of the registered paid-up shares of the Company. 3.2 Type and Size of the Transaction

Details of the calculation of the transaction size under the Notifications on Acquisition or Disposition of Assets is as follows:

Principle	Formula	Calculation (Million Baht)	Transaction size (percent)
1. Value of the Net Tangible Assets (NTA)	$\frac{\text{NTA of acquired assets} \times \text{acquired proportion}}{\text{NTA of the Company}} \times 100$	This method cannot be calculated because NTA of HUG is negative	
2. Net operating profits	$\frac{\text{Net profits of acquired assets} \times \text{acquired proportion}}{\text{Net profits of the Company}} \times 100$	This method cannot be calculated because the Company has a loss in the accounting period of the past 12 months from the date March 31, 2022.	
3. Total value of consideration paid or received ^{1/}	$\frac{\text{Total consideration} \times 100}{\text{Total asset of the Company}}$	$\frac{180 \times 100}{1,419.53}$	12.68%
4. Value of securities issued for the payment of assets	$\frac{\text{Number of newly issued shares to pay for asset} \times 100}{\text{Number of issued shares and paid up of the Company}}$	$\frac{11,250,000 \times 100}{355,699,500}$	3.16%

*Calculation of net tangible assets (NTA) of the Company as of March 31, 2022 is as follows:

Financial Information of the Company	The Company As of March 31, 2022	HUG As of December 31, 2021
Asset	1,419.53	122.44
Deduct: Intangible assets	1,073.84	0.00
Deduct : Total liabilities	220.20	127.02
Deduct : Non-controlling interests	(3.63)	0.00
Net tangible assets (NTA)	129.12	(4.58)
Net profit (loss) (last 12 months)	(77.74)	(0.39)

Upon calculation of the transaction size based on total value of consideration compared to net tangible assets value of the Company according to the reviewed quarterly financial statements of the Company ended March 31, 2022 the transaction value is equal to 12.68%. Upon combination of the Company's transactions involving the acquisition of assets over the past six months which is 11.01%, the highest value of the transaction is equal to 23.69% based on the total value of consideration criteria. The transaction is regarded as a type 2 (the transaction between the listed company and non-listed person which is equal to 15% or higher, but lower than 50%) pursuant to the Notifications on Acquisition or Disposition of Assets. Therefore, the Company is required to immediately report and disclose an information memorandum on such transaction by the Company to the SET, which must at least contain the information as required in List (1) attached to the Notifications on Acquisition or Disposal of Assets, and give notice to the shareholders within 21 days from the date of such disclosure to the SET, which must at least contain the information as required in Lists (2) 1, 2, 3, 5(3), 7 and 8 attached to the Notifications on Acquisition or Disposal Assets.

Therefore, the Company prepared the information regarding the allocation of the newly issued shares to the private placement investors, which is important to the decision of the shareholders, with the following details:

1. **Details of Offering of Newly Issued Ordinary Shares by way of Private Placement, Determination of Offering Price and Market Price**

1.1. **Offering and Allocation Procedures**

The Company shall allocate not exceeding 11,250,000 newly issued ordinary shares at a par value of THB 1.00 per share by way of private placement to the Seller of HUG Shares at the offering price of THB 8 per share or a total value of THB 90,000,000 as consideration for the purchase of HUG shares to the Seller of HUG Shares. The Seller of HUG Shares shall pay the purchase price with 1,000,000 shares at a par value of THB 100 per share which is fully paid up or representing 40 percent of all issued and paid-up shares of HUG to pay for the Company's newly issued ordinary shares instead of cash payment (the "Transaction involving the Share Allocation in Consideration of an Acquisition of Shares in HUG").

In this regard, the Transaction involving the Share Allocation in Consideration of an Acquisition of Shares in HUG to the Seller of HUG Shares which is not the connected person with the Company constitutes a private placement of newly issued ordinary shares, whereby the Shareholders' Meeting has resolved clearly determine the offering price at THB 8 per share, which is not lower than 90 percent of the market price of the Company's shares as required by the Notification of the Capital Market Supervisory Board No. TorJor. 72/2558 Re: Permission for Listed Companies to Offer Newly Issued Shares to Specific Investors dated October 28, 2015 (as amended) (the "Notification No. TorJor. 72/2558") and must be approved by the Shareholders' Meeting of the Company with affirmative votes of not less than three-fourths of the total number of votes of the shareholders who attend the meeting and are entitled to vote. In addition, not only the approval from the Shareholders' meeting to allow the Company to offer and allocate the newly issued ordinary shares of the Company, the Company also required to obtain approval from the Securities and Exchange Commission Office (the "SEC Office") as specified in the Notification No. TorJor. 72/2558 before such offering and allocation of the Company's newly issued ordinary shares.

In this regard, the "market price" for the issuance the newly issued ordinary shares to the Seller of HUG Shares is calculated from the weighted average price of the Company's shares listed on the Stock Exchange of Thailand (the "SET") for the past period of 7 consecutive business days prior to the date the Board of Directors

passed its resolution to propose this matter to the Shareholders' meeting to approve the issuance and allocation of the newly issued ordinary shares to the Seller of HUG Shares which is a private placement which during the period from May 25, 2022 to June 2, 2022 is equal to THB 7.95 per share (Source: SETSMART from www.setsmart.com).

Moreover, if the offering price of the newly issued ordinary shares to the Seller of HUG Shares is lower than 90 percent of the market price of the Company's shares before the first day of offering of the newly issued ordinary shares, the Company is obliged to prohibit the Seller of HUG Shares from selling all of such newly issued ordinary shares within one year from the date on which the Company's newly issued ordinary shares start trading on the SET (Silent Period). Upon a lapse of six months after the Company's newly issued ordinary shares have started trading on the SET, the Seller of HUG Shares may gradually sell up to 25 percent of such locked-up shares in accordance with the requirements set out in the Notification of the SET Re: Rules, Conditions and Procedures for Consideration of Application for Listing of Ordinary Shares or Preferred Shares for Capital Increase as Listed Securities B.E. 2558 (2015) dated May 11, 2015 (as amended).

Even the issuance and offering of the newly issued ordinary shares to the Seller of HUG Shares in this occasion has the offering price which is not lower than 90 percent of the market price of the ordinary of the Company as detailed above and not considered as the cause of right adjustment as specified in terms and conditions governing the rights and obligations of the issuer and holders of the warrants to purchase the ordinary shares of health empire corporation public company limited series 2 (HEMP-W2) due to the Terms and Conditions specified that *"The Company will adjust the exercise price and exercise ratio to purchase ordinary shares throughout the term of the Warrants when the Company offers to sell its newly issued ordinary shares to the existing shareholders and/or the public and/or private placement at the average price per share of the newly-issued ordinary share lower than 90 percent of the "market price of the Company's ordinary shares"*. In this regard, "market price of the Company's ordinary shares" means the average weighted price of the Company's ordinary share traded in the SET during 7 consecutive Business Days before the first date of the offering of the newly issued ordinary shares to the private placement.

Therefore, if the offering price at the first date of the offering of the newly issued ordinary shares to the private placement is lower than 90 percent of the market price of the Company's ordinary shares which the right adjustment shall effective immediately from the first date of the offering to the private placement.

In this regard, after the issuance and allocation of the newly issued ordinary shares of the Company, the Seller of HUG Shares shall hold the shares in the Company (after the increase of the registered paid-up shares of the Company) in the proportion of 3.07 of all issued and paid-up shares of the Company after the increase of the registered paid-up shares of the Company. Therefore, the Seller of HUG shares does not hold the number of shares

that reaches or passes the trigger point requiring such investors to make a tender offer as required under the Notification of the Capital Market Supervisory Board TorJor. 12/2554 re: Rules, Conditions, and Procedures for the Acquisition of Securities for Business Takeovers (and as amended) (the “**Notification TorJor. 12/2554**”).

The Company expects that the entire sale and purchase process will be complete within August 2022 (subject to the completion of the conditions precedent under the share purchase agreement) and after the Shareholders' Meeting has approved the Transaction involving the Share Allocation in Consideration of the Acquisition of Shares in HUG, including approval of matters necessary and/or in connection with the transaction.

In addition, the Board of Directors' Meeting resolved to propose that the Shareholders' Meeting consider approving to authorize the Board of Directors or the Executive Committee or Chief Executive Officer or the person authorized by the Board of Directors or the Executive Committee or Chief Executive Officer to make any arrangements in relation to the issuance, offering, allocation and subscription for such newly issued ordinary shares, including the following matters:

- (1) To determine, amend, add details relating to the issuance, offering, allocation and subscription for the newly issued ordinary shares, the offering date of the newly issued ordinary shares, list of investor in the private placement , and the payment method for the newly issued ordinary shares (whereby the period of allocation and subscription may be on one or several occasions), including such arrangements relating to the issuance, offering, allocation and subscription for such newly issued ordinary shares, and information filing and disclosure to the SET; and

In this regard, the Company will not receive cash for the issuance of newly issued ordinary shares to the private placement at this occasion. However, the considering of the Company to pay the consideration of the acquisition of shares in HUG by issue the newly issued ordinary shares causes the Company to not use large amount of working capital or borrow from the financial institution, which shall effect the liquidity position of the Company.

3. Potential Impact on Shareholders from Issuance and Offering of Newly Issued Shares by way of Private Placement

3.1 Price Dilution

$$\begin{aligned} &= \frac{\text{market price before the offering} - \text{market price after the offering}}{\text{market price before the offering}} \\ &= \frac{7.95 - 7.95}{7.95} \\ &= 0.00 \text{ percent} \end{aligned}$$

The market price before offering refers to the weighted average price of the Company's shares listed on the SET for the past period of 7 consecutive business days prior to the date the Board of Directors passed its resolution to propose this matter to the Shareholders' Meeting, which is equal to THB 7.95 per share based on the trading data of the Company's shares as displayed in SETSMART of the SET.

Market Price after the Offering's Formula

$$= \frac{(\text{number of paid-up shares} \times \text{market price before offering}) + (\text{number of newly shares} \times \text{offering price})}{(\text{number of paid-up shares} + \text{number of newly shares})}$$

$$= \frac{(533,549,250 \times 7.95) + (11,250,000 \times 8)}{(533,549,250 + 11,250,000)}$$

$$= \text{THB 7.95 per share}$$

3.2 Control Dilution

$$= \frac{\text{number of newly issued shares}}{\text{number of paid-up shares} + \text{number of newly issued shares}}$$

$$= \frac{11,250,000}{533,549,250 + 11,250,000}$$

$$= 3.07 \text{ percent}$$

3.3 Earnings per Share Dilution

The Company has net loss from operations. Therefore, there cannot be calculated.

4. The value that shareholders receive compared to the impact on their share of profits or their voting rights.

Upon comparison between the benefits from the offering of the newly issued ordinary shares for accommodate the acquisition of shares in HUG and Price Dilution, and Control Dilution as described above, the Board of Directors is of the view that the offering of newly issued ordinary shares to accommodate the acquisition of shares in HUG on this occasion is benefits to shareholders more than such impacts since the acquisition of shares in HUG shall benefits to the Company and its shareholders as follows:

- (1) The Company anticipates growth opportunities in the pharmacy and medical supplies store which has a potential to grow continuously. The entry in to the share purchase transaction of HUG shall be beneficial to the Company in expanding the scope of the Company's business to be more diversified and to increase capacity and return for the Company in expanding investments into the pharmaceutical and medical supplies business, a business in which the Company sees potential and growth opportunities that will be able to generate income and good returns for the Company.

- (2) The investment in HUG shall encourage Company's growth strategy for business expansion which can extend to the Company's Healthcare & Wellness businesses by expanding the business of selling pharmaceuticals and medical supplies and increasing distribution channels for various products, enabling the Company to operate a more comprehensive business from the production and distribution of herbal products and herbal extracts including marijuana - hemp for medical-commercial purposes including consumer and service businesses such as health and beauty centers. This will increase the Company's future ability to generate income and profit.
- (3) HUG has a large customer base, branches and partners who can support or advise to the Company on its business operations. This may have a positive impact on the Company in terms of expanding business opportunities of the Company, as well as being helpful in introducing partners who are beneficial to the Company's business. The investment will also help to improve the effectiveness of the Company's operations and expand the Company's business operations.
- (4) The company does not have to rely on the Company's cash flow or its working capital, and does not need to seek the source of large fund for investing in HUG shares as the Company will issue and allocate newly issued ordinary shares of the Company in the amount of not exceeding 11,250,000 shares at a par value of THB 1 per share at the offering price of THB 8 per share, or equivalent to not exceeding THB 90,000,000 by the way of Private Placement as payment in kind for the acquisition of shares of HUG instead of cash to the Seller of HUG Shares. Therefore, this is the investment management of the Company which will not significantly affect the working capital of the Company, and does not create a burden for the Company to borrow a lot of money from financial institutions or any other person.

However, the Company considers considerations for entering into the transaction since HUG shares are settled by the Company's shares, it creates a dilution effect on the existing shareholders. However, when compared to the value of the acquired assets and the expected benefits as detailed above including financial liquidity for future business operations and returns to shareholders in the future. The company calculates that the return on equity ratio that shareholders will receive from HUG's operations will be approximately 15 percent (average of 5 years according to the projection period). The assumptions used for reference are as follows:

Main assumptions	Details

The growth rate is at 194.93% and 195.38% in the year 2020 and 2021 respectively, which is also in line with the warehouse expansion plan in the future.</p>

Sale and management expenses	<p>Based on historical sale and management expenses data, which is estimated from expenses group such as employee-related expenses which has growth rate of 5.00% per year, branch-related expenses which has growth rate of 10.00% per year, sale expenses which is proportionate to revenue, and other fixed expenses throughout an estimated period.</p>
Investment budget	<p>Based on an estimated investment budget obtained from executive.</p>
Depreciation	<p>An estimated depreciation of former assets is fixed throughout an estimated period. The additional investment depreciation is determined to use straight-line method and having a use period of 10 years.</p>
Corporate income tax	<p>20.00%</p>
Discount rate	<p>The discount rate use for calculating the current net value of the cash flow is calculated from the weighted average cost of capital (WACC) according to the project's capital structure in each year, which was estimated from weighted average cost of debt (Kd) and cost of equity (Ke) of the project in each year whereby:</p> <p><u>Risk Free Rate (Rf)</u> is based on 15 years return rate from the government bond, which is the return from the government bond that has liquidity with has a return rate at 2.82% per year (data as of March 9, 2022)</p> <p><u>Market Return (Rm)</u> is based on the return rate from the investment in the Stock Exchange of Thailand (the "SET") for the last 15 years which has a return rate at 10.96% per year (data as of March 9, 2022)</p>

Main assumptions	Details
	<p><u>Beta (β)</u> is based on the variance between the return of the SET with the average return of listed companies in the SET in the pharmaceutical and nutritional supplement, cosmetic, medical device manufacturing and distribution industries i.e. IP, MEGA, APCO, DOD, BEAUTY, and TM, based on the last 3 years historical data until March 9, 2022, therefore, an average unlevered Beta is equivalent to 0.76. HUG has debt to equity ratio equivalent to 0.00, therefore, there cannot be calculated back to leveraged Beta.</p> <p><u>Liquidity Discount</u> HUG is not a registered company in the stock exchange, therefore, HUG has discount rate for lack of stock liquidity at the rate of 30.00%. Cash flow growth rate after an estimated period (Terminal Value)	Determined the cash flow growth rate after an estimated period at 0.00%
Return On Equity	At the rate of 15% (approximately 5 years, throughout an estimated period)

In this regard, the Company therefore considered that the proceedings for the offering of newly issued ordinary shares are appropriate and will benefit to the shareholders more than the impact on Price Dilution or Control Dilution. This is because, the Company will acquire shares in HUG, which has the potential to grow. Therefore, the offering of the newly issued ordinary shares will build up a good returns for the Company in the long run.

5. Opinion of the Board of Directors

5.1 Rationale and Necessity for Capital Increase

The Board of Directors of the Company considers that the increase of registered capital of the Company to be used as payment in kind for an acquisition of shares in of HUG whereby the Seller of HUG Shares will use

1,000,000 shares in HUG at a par value of THB 100 per share as payment in kind for the Company's newly issued ordinary shares allocated to them instead of cash payment in this occasion. The Board of Directors has considered and compared with raising funds for the acquisition of HUG's shares by other methods instead of increasing the capital to the sellers of HUG shares as detailed below and deemed that The Company's capital increase as a payment in kind for the purchase of HUG's shares is reasonable and will secure the best benefits for the Company's shareholders.

- (1) Borrowing the whole amount to pay for the acquisition of HUG's ordinary shares may cause the greater financial burden to the Company to have more borrowing and interest burdens. This may result in the Company have higher financial costs;
- (2) Regarding the capital increase by way of the public offering, the Board of Directors is of the opinion that the fundraising by this method requires a longer period than the capital increase by offering to the existing shareholders in shareholding proportion and a limited person; and
- (3) Regarding the capital increase by way of rights offering, the Board of Directors is of the opinion that funding in this way is limited by the uncertainty of the amount of funds that the Company will be received. The Company may not receive a support from the existing shareholders in fully subscribing for the Company's newly issued ordinary shares and it may incur a burden to the existing shareholders to pay the capital increase and have a longer processing time than the capital increase to the private placement.

5.2 Feasibility of the Plan for Use of Proceeds and Sufficiency of Source of Funds

The Company shall use newly issued ordinary shares as payment in kind for the acquisition of shares in HUG to the Seller of HUG Shares. The Company anticipates that the share purchase transaction of HUG could be completed by August 2022 or any other day as mutually agreed between the Company and the Seller of HUG Shares (subject to the fulfillment of the conditions precedent under the share purchase agreement).

5.3 Reasonability of the Capital Increase, Plan for Use of Proceeds and Sufficiency of the Source of Fund in case the Money from the Share Offering does not cover the Budget for the Plan

The Company's capital increase is reasonable and shall be the best beneficial to the Company. Where the Company secures its funds by other means instead of the capital increase, such as, taking out a loan, the Company may incur additional loan burdens. In addition, the investment in HUG shall increase the Company share value and the return rate to the Company's shareholders. This is because HUG will help expand the scope of the company's

business to be more diversified and increase the Company's capacity and performance to expand the investment into the pharmaceutical and medical supplies store business, which is a business that the Company foresees the potential and growth opportunities that can generate good returns to the Company.

5.4 Potential Impact on the Company's Business Operations, Financial Position and Overall Operating Results from the Capital Increase

After having considered the justifications and benefits from the share purchase transaction of HUG and Transaction involving the Share Allocation in Consideration of the Acquisition of Shares in HUG above, the Board of Directors is of the opinion that the capital increase is reasonable and shall bring the best benefits to the Company, particularly the offering of newly issued ordinary shares at the offering price of THB 8, which is based on the market price, namely the weighted average price of the Company's shares for the previous 7 consecutive business days during the period from May 25, 2022 to June 2, 2022 is equal to THB 7.95 per share (Source: SETSMART from www.setsmart.com) as payment in kind for the share purchase transaction of HUG which will help enhance the Company's operation and benefit its shareholders in the long run.

Potential impact on the Company in the event that the project cannot be completed successfully

Should HUG has a deterioration in earnings or losses in the future, will result in the Company having to bear the lower operating results or the loss of HUG under the Company's financial statements.

5.5 Justifications of the Offering Price and Backgrounds for Determination of the Offering Price

The Company clearly specified the offering price for newly issued ordinary shares by the way of private placement at THB 8 per share, which is not lower than 90 percent of the weighted average price of the Company's shares calculated for the past 7 consecutive business days prior to the date that the Board of Directors passed its resolution to propose this matter to the Shareholders' Meeting of the Company to approve the increase and the allocation of newly issued ordinary shares by the way of private placement during the period from May 25, 2022 to June 2, 2022 is equal to THB 7.95 per share (Source: SETSMART from www.setsmart.com).

In this regard, the Board of Directors viewed that the offering price by the way of private placement by determining the offering price above is a reasonable price when compared to the book value of the Company according to the consolidated quarterly financial statements for the Company ended March 31, 2022, which equal to THB 3.38 per share. The Company has taken into account the current condition in which the Company has accumulated losses under the current economic and capital market conditions. In addition, the use of such shares

to pay for the acquisition of shares in HUG, will result in benefit the Company and its shareholders without using the Company's working capital and do not need to find other sources of funding such as bank loans, etc.

In addition, the Board of Directors is of the opinion that the acquisition of shares in HUG, which the Company will purchase from the Seller of HUG Shares at the offering price at THB 8 per share, is appropriate and reasonable price for the Company to pay the Company's shares as compensation for the acquired of HUG's shares purchased from Seller of HUG Shares with the share swap ratio of 1 ordinary share of HUG per 11.25 newly issued ordinary shares of the Company. Upon comparison between the fair value of HUG, the purchase of 1,000,000 shares of HUG from the Seller of HUG shares is equal to THB 180 per share, totaling at the value of THB 180,000,000 by reference to the valuation of the ordinary share of HUG conducted by the executive referenced to the discounted cash flow method, which is the most suitable method and reflects the most profitable and generating future cash flows from HUG's business operations. The fair valuation of HUG's shareholders' equity as at December 31, 2021 is equal to THB 508.65 million, which has the value in accordance with the proportion to the acquisition at 40.00%, equal to THB 203.46 million. Therefore, it is deemed that a fair price of HUG shares trading is reasonable.

When considering the reasons, necessity and benefits that the Company will receive from the issuance and allocation of newly issued ordinary shares for sale to the private placement as mentioned above. The Board of Directors was, therefore, resolved to approve the issuance and allocation of newly issued ordinary shares for sale to the Seller of HUG Shares and is of the opinion that the allocation of the newly issues shares by the way of private placement, the allocation conditions, offering price are appropriate and for the best interest of the shareholders.

5.6 Rationale and Justifications of the Offering of Newly Issued Shares by way of Private Placement

The Board of Directors is of the opinion that the offering of newly issued shares on this occasion is in consideration of the acquisition of shares in HUG between the Company and the Seller of HUG Shares as a payment in kind without having to pay compensation in cash in full. So, there has no significant impacts on the financial flexibility, and HUG is a company with growth and development potential, which will benefit the Company and its shareholders in the long run.

Moreover, it also reduces the financial burden of the Company if the Company proceeds to seek the source of funds such as, borrowing of loan, it may result in greater financial and interest burden, or if it is the capital increase to the existing shareholders of the Company, it may result uncertainty of the amount receiving from the fund raising and may be a burden on the existing shareholders to pay the capital increase and have a time frame for the operation which is more rigid than the capital increase by way of private placement. Therefore, the Board of Directors is of the opinion that this Private Placement transaction is necessary and reasonable.

6. Certification of the Board of Directors on Capital Increase

For the purposes of capital increase by way of private placement, the Board of Directors has carefully considered and verified the information of the Seller of HUG Shares, whom are a private placement investors. In this regard, Board of Directors is of the opinion that the Seller of HUG Shares have the potential and ability to actually invest. In the event where any director of the Company fails to perform his/her functions with integrity and due care to protect the Company's interests during the course of in this capital increase, and such failure has caused damage to the Company, the shareholders may take legal actions to claim damages from such director on behalf of the Company pursuant to Section 85 of the Public Limited Companies Act B.E. 2535 (1992) (as amended). In the event where the failure to perform such functions has caused any directors or persons concerned to gain undue benefits, the shareholders may take legal actions to recover such benefits from the directors on behalf of the Company pursuant to Section 89/18 of the Securities and Exchange Act B.E. 2535 (1992) (as amended).

The Company hereby certifies that the information in this report is correct and complete in all respects.
